

Session 13 Quiz - Prompting for Real Tasks

Track B Grades 9–12 20 Questions

Q1 [Type: MCQ Difficulty: Easy | QID : 53501]

_____ is an AI tool designed for source-grounded research - it answers questions based only on the documents you provide, which helps reduce hallucinations.

- A. ChatGPT
- B. QuillBot
- C. NotebookLM
- D. Gemini

Correct Answer: C

Explanation: NotebookLM is the tool in your toolkit specifically built for source-grounded research. Because it only uses documents you upload, it greatly reduces the chance of hallucinated facts and is the right choice for textbook chapters, articles, or any source you trust.

Q2 [Type: MCQ Difficulty: Medium | QID : 53507]

According to the Golden Rules of responsible AI use, you are always the _____ - meaning you should never copy and paste AI output and submit it as your own work.

- A. Editor
- B. Researcher
- C. Tutor
- D. Author

Correct Answer: D

Explanation: "You are the author" is the first Golden Rule. The pattern is to use AI to outline or brainstorm and then write your own version; the wrong pattern is to submit AI-generated work directly.

Q3 [Type: MCQ Difficulty: Easy | QID : 53509]

Using AI to generate an entire essay and submitting it as your own is acceptable as long as you prompt it effectively.

- A. True
- B. False

Correct Answer: B (False)

Explanation: Responsible AI use means using the tool as a partner, not as a replacement for your own work. "You are the author" forbids submitting AI output directly, regardless of how well it was prompted.

Q4 [Type: MCQ Difficulty: Medium | QID : 53511]

ChatGPT, NotebookLM, and QuillBot are essentially interchangeable - picking one over another for a given task does not really change the quality or trustworthiness of the result.

- A. True
- B. False

Correct Answer: B (False)

Explanation: Each tool has different strengths. NotebookLM grounds answers in your uploaded sources (best for research). QuillBot polishes writing you already have, not new content. ChatGPT and Gemini are best for creative and conversational tasks. Picking the wrong tool either wastes time or gives you the wrong kind of answer.

Q5 [Type: MCQ Difficulty: Easy | QID : 53514]

Which component of the 'Prompt Framework' refers to the specific style or layout you want the AI to produce, such as a table or a bulleted list?

- A. Constraints
- B. Context
- C. Format
- D. Topic

Correct Answer: C

Explanation: The format defines the structure of the output, ensuring it meets the user's organizational needs.

Q6 [Type: MCQ Difficulty: Medium | QID : 53518]

A student asks an AI to Explain the concept of photosynthesis to a 5th grader using an analogy. Which advanced prompting technique is being utilized?

Look at how the prompt defines the specific audience and tone the AI should adopt.

- A. Role-based prompting
- B. Few-shot prompting
- C. Zero-shot prompting
- D. Chain-of-thought prompting

Correct Answer: A

Explanation: By specifying the target audience and the use of an analogy, the prompt sets a specific persona or instructional role for the AI.

Q7 [Type: MCQ Difficulty: Medium | QID : 53521]

What is the primary goal of the Human-in-the-loop principle in AI prompting?

- A. To allow the AI to learn faster by observing human behavior.
- B. To reduce the number of prompts needed to get a correct answer.
- C. To let the AI handle all decision-making once the prompt is written.
- D. To ensure the user reviews, verifies, and stays in control of the AI's output.

Correct Answer: D

Explanation: This principle ensures that the human user is the final authority on the accuracy and utility of the AI-generated content.

Q8 [Type: MCQ Difficulty: Medium | QID : 53525]

When using AI for a math task, such as solving , which technique is best to help you understand the process rather than just getting the solution?

- A. Role-based prompting
- B. Few-shot prompting
- C. Chain-of-thought prompting
- D. Zero-shot prompting

Correct Answer: C

Explanation: Asking the AI to think step-by-step ensures that the reasoning process is visible, which supports actual learning.

Q9 [Type: MCQ Difficulty: Hard | QID : 53528]

Which of the following is considered a common mistake in AI prompting?

- A. Using too many constraints in a single prompt.
- B. Refining a prompt through multiple rounds.
- C. Accepting the first answer the AI gives without checking it.
- D. Giving the AI a specific persona to act as.

Correct Answer: C

Explanation: AI can hallucinate or provide incomplete info, making verification and iteration essential.

Q10 [Type: MCQ Scenario Difficulty: Medium | QID : 53532]

Scenario: A student wants help with this task: "Draft a polite email to my teacher asking for feedback on my project draft. Keep it short and respectful. Include that I will send the file separately."

Question: Which category of real task is this?

- A. Creative task
- B. Everyday / Writing task
- C. Research task
- D. Source-grounded summarization

Correct Answer: B

Explanation: Drafting an email is a practical writing task - it falls under the everyday and writing categories. It doesn't require imagination from scratch (creative), grounded sources (research), or document summarization.

Q11 [Type: MCQ Scenario Difficulty: Hard | QID : 53535]

In the context of Responsible AI Use, what should you do if an AI provides a factual claim that you intend to use in a school report?

- A. Ask the AI to confirm if it is telling the truth.
- B. Verify the fact using a reliable, human-authored source.
- C. Use the fact only if the AI provides a citation for it.
- D. Copy and paste it directly to ensure the wording is professional.

Correct Answer: B

Explanation: Responsible use requires checking AI output against trusted sources to avoid spreading hallucinations.

Q12 [Type: MCQ Scenario Difficulty: Hard | QID : 53537]

Which AI tool is described as being best for multimodal tasks involving both text and images?

- A. NotebookLM
- B. QuillBot
- C. Gemini
- D. Perplexity

Correct Answer: C

Explanation: Gemini is designed to handle multiple modes of input and output, such as analyzing a diagram of a plant cell.

Q13 [Type: FRQ Difficulty: Hard | QID : 53550]

Your school is hosting a short film competition and you need a title for your 5-minute film about a kid who finds a mysterious letter in his locker. For this **creative task**, write a **few-shot prompt** asking AI to generate 5 title ideas. Give 2 examples first to set the style.

Model Answer: *"Here are short film titles I like: - The Last Train Home - Letters We Never Sent*

Generate 5 more title ideas for a 5-minute film about a kid who finds a mysterious letter in his locker. Keep the same simple, emotional style."

Q14 [Type: FRQ Difficulty: Hard | QID : 53552]

Your best friend's 16th birthday is tomorrow and you want to write them a birthday message that sounds personal — not the generic "happy birthday, stay blessed" stuff everyone posts. For this **creative task**, write a prompt using **role-based + constraints**.

Model Answer: *"Act as someone who writes heartfelt but not cheesy birthday messages. Write a birthday wish for my best friend turning 16. We've been friends for 5 years. Keep it under 50 words, casual tone, and avoid clichés like 'many more to come' or 'stay blessed.'"*

Q15 [Type: FRQ Difficulty: Hard | QID : 53555]

Tomorrow is a packed day — school 8 AM to 3 PM, 2 hours of homework, basketball practice 5 to 6:30 PM, and family dinner at 8 PM. You need to fit in study, food, and rest somewhere in between. For this **everyday task**, write a prompt with clear **instructions, context, and constraints**.

Model Answer: *"Plan my day for tomorrow. I have school 8 AM to 3 PM, 2 hours of homework, basketball practice 5 to 6:30 PM, and dinner with family at 8 PM. Suggest the best order for the remaining time including study, meals, and breaks. Format as a simple hourly schedule."*

Q16 [Type: FRQ Difficulty: Hard | QID : 53556]

Next semester you can pick only one — football team (3 days a week, 2 hours each) or coding class (1 day a week, 3 hours). You like both equally. For this **everyday task**, write a **chain-of-thought prompt** to help you decide.

Model Answer: *"I'm choosing between joining the football team (3 days a week, 2 hours each) or taking a coding class (1 day a week, 3 hours). I enjoy both equally but can only pick one this semester. Think step by step about time commitment, skill development, and long-term value. Then give your recommendation with reasoning."*

Q17 [Type: FRQ Difficulty: Hard | QID : 53559]

You're writing a school project on **"The impact of social media on teenagers"** and you need real findings backed by actual studies — not made-up sources. For this **research task**, write a prompt that tells AI to be honest about source reliability.

Model Answer: *"I'm researching the impact of social media on teenagers for a school project. Give me 3 main findings backed by real studies. For each finding, include the source name. If you're unsure about a source, say so instead of inventing one. Suggest where I can verify each claim."*

Q18. [Type: FRQ Difficulty: Hard | QID : 53561]

You read online that **"humans only use 10% of their brain"** and want to check if it's actually true before believing it. For this **research task**, write a prompt that helps AI verify the claim properly.

Model Answer: *"I read online that 'humans only use 10% of their brain.' Help me fact-check this. Explain step by step: where this claim comes from, what science actually says, and where I can verify it through reliable sources. End with a clear verdict."*

Q19. [Type: FRQ Difficulty: Hard | QID : 53562]

You have a biology test next week on **photosynthesis** and your textbook explanation isn't making sense. For this **learning task**, write a **role-based prompt** to help you actually understand it.

Model Answer: *"Act as a patient tutor. I don't understand how photosynthesis works — my textbook is too confusing. Explain it using a simple analogy, in under 100 words. After the explanation, ask me one question to check if I actually understood."*

Q20. [Type: FRQ Difficulty: Hard | QID : 53564]

You're studying for a **World War 2 history test** and want to practice real test-style questions — but you don't want the answers handed to you. For this **learning task**, write a prompt that gives you practice questions without revealing the answers immediately.

Model Answer: *"I'm studying for a history test on World War 2. Give me 5 practice questions covering major events, causes, and outcomes. Don't show the answers — I'll attempt them first and then ask you to check my work."*
